Aramis Lobo

Full Stack Developer | JavaScript + PHP

Email: iaramislobo@gmail.com
Phone: 704 323 6989
Location: Miami, FL 33186

Professional Summary

Highly skilled PHP/Drupal Developer with around 15 years of extensive experience in designing, developing, and maintaining web applications. Proven track record in delivering robust, scalable, and secure Drupal solutions for various industries including healthcare, education, and e-commerce. Expertise in custom module development, theme customization, and integrating third-party services. Proficient in Laravel and Symfony frameworks, enhancing backend functionality and performance. Experienced in front-end development with Vue.js and React, creating dynamic and responsive user interfaces. Skilled in deploying and managing applications on AWS, ensuring high availability and scalability. Adept at collaborating with cross-functional teams and mentoring junior developers.

Core Competencies

- **PHP:** Advanced proficiency in PHP with a strong understanding of object-oriented programming (OOP) and MVC architecture.
- **Drupal:** Expert in Drupal 7, 8, 9 and 10, including custom module development, theming, and migration.
- **Laravel:** Experienced in developing complex web applications using Laravel, including Eloquent ORM, Blade templating, and Laravel Mix.
- **Symfony:** Skilled in building scalable applications using Symfony, with a focus on reusable components and dependency injection.
- **Front-End Technologies:** HTML, CSS, JavaScript, jQuery, React, Vue.js.
- **Database Management:** MySQL, PostgreSQL.
- **Cloud Services:** AWS (EC2, S3, RDS, Lambda, CloudFormation).
- **Version Control:** Git, SVN.
- **Tools & Technologies:** Composer, Drush, Docker, Jenkins.
- **Web Services:** REST, SOAP, JSON.
- **Project Management:** Agile, Scrum, JIRA, Trello.
- **Communication:** Excellent written and verbal communication skills, team collaboration, and client interaction.

Professional Experience

Senior Drupal/Laravel/Vue.js/React/AWS Developer
Hug Consulting, San Francisco, CA | Remote
January 2016 – Present

- Led the development of multiple high-traffic Drupal websites for clients in healthcare and e-commerce sectors.
- Designed and implemented custom modules to extend Drupal functionality, improving site performance by 30%.
- Conducted site migrations from Drupal 7 to Drupal 8/9, ensuring minimal downtime and data integrity.
- Developed Laravel-based applications to enhance backend functionality and improve user experience.
- Created RESTful APIs using Laravel for mobile and front-end integration.
- Built interactive and dynamic user interfaces using Vue.js and React, enhancing the overall user experience.
- Deployed and managed applications on AWS, utilizing services such as EC2, S3, RDS, and Lambda to ensure high availability and scalability.
- Set up and maintained CI/CD pipelines using Jenkins and AWS CodePipeline.
- Collaborated with UX/UI designers to create responsive, user-friendly themes.
- Integrated third-party APIs and services, including payment gateways, CRM systems, and social media platforms.
- Mentored junior developers and conducted code reviews to maintain code quality and best practices.
- Utilized Docker for local development environments and Jenkins for continuous integration and deployment.

PHP/Drupal/Symfony/React Developer
NASA, Washington, D.C.
June 2012 – December 2015

- Developed and maintained Drupal websites for educational institutions, improving site functionality and user engagement.
- Created custom content types, views, and panels to meet client-specific requirements.
- Built scalable applications using Symfony, focusing on reusable components and service-oriented architecture.
- Implemented advanced search functionalities using Apache Solr and Elasticsearch.
- Developed responsive and dynamic web applications using React, improving client-side performance and user engagement.
- Optimized website performance through caching strategies and database query optimization.
- Deployed applications on AWS, utilizing EC2 instances and S3 for storage solutions.

- Coordinated with clients to gather requirements and provide technical support during and after project completion.

Junior PHP Developer
Soliant Consulting, Chicago, IL
March 2011 – May 2012

- Assisted in the development of small to medium-sized business websites using Drupal and PHP.
- Maintained existing websites, applied updates, and ensured compatibility with modern web standards.
- Developed custom Drupal themes from scratch, adhering to branding guidelines.
- Participated in client meetings to understand project goals and deliverables.

Education

Bachelor of Science in Computer Science
The University of Hong Kong
Graduated: December 2010
